

Instructions for Bunny

Print the pattern pieces for the bunny.

Cut out the body, outer ears, hair and feet with white cardstock. Cut out the inner ears and heart with pink cardstock. Chalk all the edges of the bunny with brown chalk, then adhere the feet to the bottom of the body.

Adhere the inner ears to the outer ears, then adhere the ears just behind the bunnys head. Adhere the heart and hair to the bunny (see pic for placement). Cut a small triangle for his nose and small thin strips for his whiskers from black cardstock. Adhere these to his face. Using black gel pen draw two small eyes and small line coming down from his nose on his face. Your bunny is now completed.
